

Netflix is looking to bring great Quebecois stories to the world. We'll discover these stories from both seasoned storytellers and undiscovered talent all over Quebec. Diverse voices are important to us.

This month, Netflix content leaders are coming to Montreal to meet with Quebecois creators, learn more about their projects and strengthen relationships with the creative community.

How it works:

From today until Tuesday, May 22, Netflix is accepting pitch proposals from Quebec for TV series or films across a variety of categories. From these submissions, we'll invite a number of producers to meet with leaders on the Netflix content team. We'll also invite local creators who submit a proposal to a reception to get to know everyone better. Details for both events will be announced soon.

Here are the details on the projects we are interested in and how to submit proposals:

INTERNATIONAL ORIGINALS

The international originals team is interested in non-English-language series projects.
